

**AMENDMENTS TO THE SPECIFICATION:**

1st paragraph KC 5-29-09

Please amend the 2<sup>nd</sup> paragraph at page 7 of the specification as follows:

The shorting plate 220 has a predetermined length  $h$  and width  $[[w]]$   $\omega$  for adjusting the desired resonant frequency and the shorting plate 220 can be coupled either of a length side  $C$  and a width side  $[[\omega]]$   $D$  of the radiation patch 210.
